Renee Thomas
Sr. Engineer & DOT Manager
Adhesives Technology Corp.
450 E. Copans Road
Pompano Beach, FL 33064

Subject: Appendixes A, B, C and D of IM 491.11, New Approval

Dear Renee:

I have reviewed your request for approval of the Ultrabond EPX-3CC, an adhesive anchor manufactured by the Adhesives Technology Corp. The submitted documents and test results indicate the product in compliance with the Iowa DOT IM 491.11. The test results from the ICC Evaluation Service report also show that the product meets the creep criterion of ICC-ES AC308. Based on the documentation provided and the test results reported, this product has been approved and will be added to the Iowa Materials Approved Product List Enterprise (MAPLE), the Appendixes A, B, C and D of IM 491.11, respectively. To search the MAPLE, please visit "<https://maple.iowadot.gov/>".

The approval of the product may be withdrawn any time because of deficient test result, product change, or unsatisfactory field performance. Please feel free to contact me if you have any questions.

Sincerely,

Todd Hanson
Concrete Materials Engineer
