RE: QPL approval for CRACKBOND 2100 MV

Dear Ms. Thomas:

The Nevada Department of Transportation (NDOT) has reviewed your application for the CRACKBOND 2100 MV product for potential inclusion on its Qualified Products List (QPL) under category 728.03.02 EPOXY RESIN ADHESIVE FOR BONDING. The product meets current NDOT acceptance criteria and therefore will be added to the QPL with the following remarks: *"Type II; Grade 2; Class B and C."*

It must be emphasized that this QPL is only used to pre-qualify products. Product approval should not be construed as a performance guaranty nor is it intended as an endorsement by NDOT. Your product will remain on the QPL as long as its performance is satisfactory. Poor performance in the field will result in suspension or removal from the QPL as per established NDOT product evaluation procedures. ***NDOT evaluation procedures further require that any modification of your product or a change in manufacturer's name and address should be conveyed to the NDOT Research Division in a timely manner (defined as 30 days from action).*** Failure to disclose this information may result in suspension of this approval or removal from the QPL. Additionally, failure to respond to the annual update of your QPL information will result in suspension of this approval or removal from the QPL.

Should you have any questions regarding this matter, please contact me at sgilbert-young@dot.nv.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Sabra Gilbert-Young".

Sabra Gilbert-Young,
Product Evaluation Coordinator
