Re: QPL Product Evaluation, QPL2024042

Renee Thomas,

The evaluation of Adhesive Technologies Corp, CRACKBOND 2100 MV TY. II and V that is manufactured by in Pompano Beach, Florida has been completed.

The product review indicates that this product meets the requirements of Section 9-26.1(1)B of the 2024 WSDOT Standard Specifications for Road, Bridge, and Municipal Construction and have been added to the Qualified Products List (QPL). A copy of the listing, as found in the QPL, is enclosed.

The acceptance code for these products will be "1125" which states: Receipt of a satisfactory Test Report from WSDOT Materials Laboratory is required indicating that the lot(s) or batch(es) of material meets the requirements of the specifications under which it is listed. The Test Report must be received prior to incorporating the material into the project. Samples must be submitted to the State Materials Lab a minimum of 21 days prior to use.

The QPL may be found on the Internet at:
http://www.wsdot.wa.gov/biz/mats/QPL/QPL_Search.cfm

Sincerely,

Pat Norton
Assistant Materials Quality Assurance Engineer
