Re: QPL Product Evaluation, QPL2022031

Ms. Thomas,

The evaluation of ATC – Ultrabond HYB-2CC manufactured in Pompano Beach, Florida, has been completed.

The product review indicates that this product meets the requirements of Section 9-26.1(1)A, 9-26.1(1)B & GSP 6-02.2.OPT1.GR6 of the 2022 WSDOT Standard Specifications for Road, Bridge, and Municipal Construction and have been added to the Qualified Products List (QPL). A copy of the listing, as found in the QPL, is enclosed.

The acceptance codes for these products will be “1125” and “3109”, 1125 states: Receipt of a satisfactory Test Report from WSDOT Materials Laboratory is required indicating that the lot(s) or batch(es) of material meets the requirements of the specifications under which it is listed. The Test Report must be received prior to incorporating the material into the project. Allow approximately 8 weeks for testing to be completed from when the sample is received by the State Materials Laboratory.

“3109” states: A - Visually verify the resin bonding adhesive delivered is the product that was originally submitted by the Contractor and approved from the QPL. Note 'Restrictions' when present. B - Acceptance of threaded rods, nuts, and washers shall be by satisfactory Manufacturer's Certificate of Compliance per WSDOT Standard Specification 1-06.3 for each delivery of material to the project site. Supporting mill tests or documents may also be required with this document. If the Contract contains a Buy America clause, the PEO is responsible for acquiring a Certificate of Material Origin from the Contractor.

The QPL may be found on the Internet at:
