Subject: Approval – Epoxy Injection Resins

Dear Renee:

I have reviewed your request for approval of CRACKBOND LR-321 SLV epoxy injection resin. Based on the independent lab results indicating compliance with ASTM C881, the following product will be added to our approved products list within MAPLE:

- CRACKBOND LR-321 SLV, IM 491.19 Appendix A

To search the MAPLE, please visit <https://maple.iowadot.gov/>.

The approval may be withdrawn at any time because of deficient test results, product changes, or unsatisfactory field performance.

Please feel free to contact me if you have any questions.

Sincerely,

Todd Hanson
Concrete Materials Engineer
