## Epoxies (non-bridge applications)

### Epoxy Bonding Agents

Used to bond fresh concrete to old concrete

Product Name	Manufacturer
Crackbond LR-321	<a href="#">Adhesives Technology</a>
ASF-1000	<a href="#">Adhesives Technology</a>
SLV-302	<a href="#">Adhesives Technology</a>

### Epoxy Crack Sealers

Used for crack sealing in non-load bearing applications.

Product Name	Manufacturer
Crackbond LR-321	<a href="#">Adhesives Technology</a>
SLV-302	<a href="#">Adhesives Technology</a>

### Epoxy Crack Sealers

Used for crack sealing in load bearing applications.

Product Name	Manufacturer
Crackbond LR-321	<a href="#">Adhesives Technology</a>
SLV-302	<a href="#">Adhesives Technology</a>

### Epoxy Penetrant Sealers

Used to seal concrete surfaces which have received moderate rain damage or have a weak surface.

Power Plant	Class
Crackbond LR-321	<a href="#">Adhesives Technology</a>
SLV-302	<a href="#">Adhesives Technology</a>
