

# CRACKBOND® EPOXY REPAIR PASTE

IDEAL FOR OVERHEAD & VERTICAL REPAIRS

## HI-MOD, HIGH-BUILD & EASILY TROWELABLE STRUCTURAL PASTE ADHESIVE.

**CRACKBOND® EPOXY REPAIR PASTE** is a two-component, moisture insensitive, high modulus, high strength, structural epoxy available in cartridges and bulk kits. Its non-sag properties are specifically formulated for large overhead and vertical repairs.

Ideal as a structural mortar repair/filler or capping paste for crack injection. Also great as a pick-proof security sealant.

**CRACKBOND® EPOXY REPAIR PASTE** packaging is available in 21.2 fl. oz. dual cartridge, 1 gallon kit and 3 gallon kit.

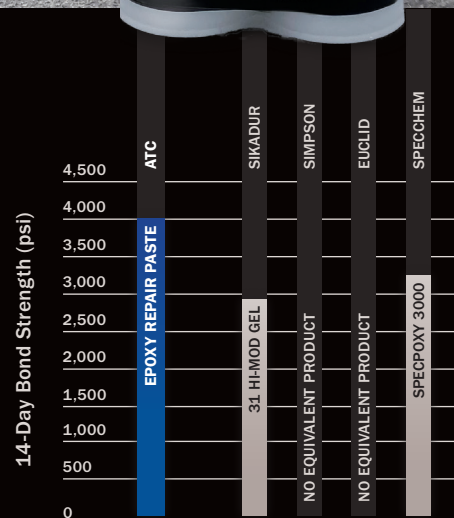

### Product Overview

Cures to over 13,000 psi	Pick-proof
Non-sag consistency	1:1 mix ratio
Available in cartridges and bulk kits	Moisture insensitive

Innovation Engineered to Outperform
