

TRANSIL® 244(+)

DENSIFYING WATERPROOFER, CHLORIDE ION BARRIER, AND PENETRATING SEALER

PROTECTS SURFACES AGAINST DAMAGE FROM FREEZE-THAW CYCLES, MOISTURE, AND CHLORIDE ION INTRUSION

TRANSIL® 244(+) is a premium Nano-Lithium® hardener, densifier and hydrophobic sealer ideal for protecting concrete and masonry surfaces against damage from freeze-thaw cycles, moisture, and chloride ion intrusion.

Features & Advantages

One time treatment, no need to reapply	Breathable--allows moisture to escape without damage to the surface
Protects against salt and freeze/thaw damage	Penetrates--no film to lift or peel off
Hardens, densifies and dust-proofs	Reduces efflorescence and surface sweating
Easy-to-use, low odor, no rinsing required	Does not contribute to surface ASR or promote crazing
Defense against water and deicing chemicals	VOC compliant, may contribute to LEED points (IEQ credit)
Not susceptible to UV damage
