# ASI 388 Black

Section 1: Product and	d Company Identification	
American Sealants, Inc.		Emergency Phone Number
9190 Yeager Ln		Infotrac: +1-800-535-5053 (Within US)
Fort Wayne, Indiana 468	09	Infotrac: +1-352-323-3500 (Outside US)
Phone: 260-489-0728		
Fax: 260-489-0519		
Product Identifier:	ASI 388 Black	
Recommended Use:	RTV rubbers (for electrical, electronic and g	general industry (gluing and sealing))
Restrictions on Use:	Industrial use only.	

Section 2: Hazard(s) Identif	ication	
Physical Hazards	Not classified	
Health Hazards	Serious eye damage/eye irritation	Category 2
	Sensitization, skin	Category 1
	Reproductive toxicity (fertility)	Category 2
	Specific target organ toxicity, repeated exposure	Category 2 (hematopoietic system
Environmental Hazards	Not classified	
OSHA defined hazards	Not classified	
* Hazards not stated here	are "Not classified", "Not applicable" or "Cla	assification not possible"
Signal Word	Warning	
Hazard Statement	Causes serious eye irritation. May ca Suspected of damaging fertility. May (Cardiovascular/Hematological: hemato repeated exposure.	/ cause damage to organs
Precautionary Statement		
Prevention		lerstood. Do not breathe

Product Identifier: ASI 388 Black

Version: 2

Response	IF ON SKIN: Wash with plenty of soap and water. If skin irritation or rash occurs: Get medical advice/attention. Get medical advice/attention if you feel unwell. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Take off contaminated clothing and wash it before reuse.
Storage	Store locked up.
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	None known
Supplemental information	None
Substance(s) formed under the condition of use	This product reacts with water, moisture or humid air to evolve following compounds: Methylethylketoxime The following material is embedded in the product and not available as respirable dust. When used as intended or as supplied, the product will
HMIS®ratings	not pose hazards. Carbon Black Health: 2* Flammability: 1 Physical Hazard: 0

· · ·	oosition/Information on Ingredients	
<u>CAS</u>	Component	Percent
Proprietary	Methyloximesilane	1 - < 3
Proprietary	Vinyloximesilane	< 1
1333-86-4	Carbon black	< 1
Proprietary	Alkoxysilane	< 1
96-29-7	Methylethylketoxime (Impurity)	< 1
556-67-2	Octamethylcyclotetrasiloxane (Impurity)	< 1

Section 4: First-Aid Measures		
Inhalation:	Move to fresh air. Call a physician if symptoms develop or persist	
Skin Contact	Wash off with soap and plenty of water. For minor skin contact, avoid spreading material on unaffected skin. If skin irritation or rash occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse.	
Eye Contact	Rinse immediately with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.	
Ingestion	Rinse mouth. Get medical attention immediately.	

Product Identifier: ASI 388 Black

Most important symptoms/effects, acute and delayed Indication of immediate medical attention and special treatment needed	Dermatitis. Rash. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause an allergic skin reaction. Prolonged exposure may cause chronic effects. Treat Symptomatically
General	If exposed or concerned:
Information	Get medical advice/attention.
	Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. Wash contaminated clothing before reuse.

Section 5: Fire-Fighting Measures	
Suitable Extinguishing Media:	Use carbon dioxide, regular dry chemical powder, foam, or water fog.
Unsuitable Extinguishing Media:	None known.
Specific Hazards Arising from the Chemical	By heating and fire, harmful vapors/gases may be formed. Nitrogen oxides. (corrosive)
Specific protective equipment and precautions for firefighters	Firefighters must use standard protective equipment including flame retardant coat, helmet, gloves, rubber boots, and self-contained breathing apparatus.
Fire-fighting equipment/instructions General fire hazards	Move containers from fire area if you can do so without risk. No unusual fire or explosion hazards noted

Section 6: Accidental Release Measures		
Personal Precautions, Protective	Keep unnecessary personnel away. Local authorities should be	
Equipment and Emergency Procedures:	advised if significant spillages cannot be contained. Do not touch or walk-through spilled material. Ensure adequate ventilation. Wear appropriate personal protective equipment.	
Methods and Materials for	Eliminate sources of ignition.	
Containment and Cleaning Up:	Large Spills: Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal.	
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.	
Environment Precautions:	Never return spills in original containers for re-use. Prevent further leakage or spillage if safe to do so.	

#### Section 7: Handling and Storage

#### Product Identifier: ASI 388 Black

Precautions for Safe Handling	Provide adequate ventilation. Use care in handling/storage. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe mist or vapor. Avoid contact with eyes. Avoid contact with skin.
Conditions for Safe Storage, including any Incompatibilities:	Store locked up. Keep in original container and tightly closed. Keep out of the reach of children. Store in a cool, dry place out of direct sunlight. Keep in original container.

Section 9: Physical and Chemical Properties			
Appearance	Paste	Color:	Black
Odor:	Oxime odor	Odor Threshold:	Not available
pH:	Not applicable	Melting Point/freezing point:	Not applicable
Initial boiling point and boiling range:	Not applicable	Flash point:	204.8 °F (96 °C) Closed cup
Evaporation Rate:	< 1 (Butyl Acetate=1)	Flammability (soild, gas)	Not applicable
Upper/lower flammability or explosive limits	No data	Vapor Pressure:	Negligible (25 °C)
Vapor Density (air = 1):	> 1 (air=1)	Density:	1.03 (25 °C)
Water Solubility	Not soluble	Partition Coefficient (n- octanol/water)	Not applicable
Auto Ignition:	Not available	Decomposition temperature	Not available
Viscosity:	Not applicable	Molecular Formula:	Not applicable

Section 10: Stability and Reactivity		
Reactivity:	No bazardouc reaction known under normal conditions of use storage	
neuclivity.	No hazardous reaction known under normal conditions of use, storage and transport.	
Chemical Stability:	Stable at normal temperatures and pressure.	
Possibility of Hazardous Reactions:	Hazardous polymerization does not occur.	
Conditions to Avoid:	None known.	
Incompatible Materials:	Strong oxidizing materials, water, moisture	
Hazardous Decomposition Products:	This product reacts with water, moisture or humid air to evolve following compounds: Methylethylketoxime. Refer to section 8:	
	exposure controls/personal protection and section 11: toxicological information.	
	Thermal breakdown of this product during fire or very high heat condition may evolve the following hazardous decomposition product:	
	Carbon oxides and traces of incompletely burned carbon compounds.	
	Silicon dioxide, Nitrogen oxides, and Formaldehyde.	

Section 11: Toxicological Information		
Information on Likely Rout	es of Exposure	
Ingestion:	No significant effects are expected.	
Inhalation:	No significant effects are expected.	

Skin Contact:		May cause an allergic skin				
Eye Contact:		reaction.				
Symptoms related to the physical, chemical, and toxicological characteristics Information on toxicological effects		Causes serious eye irritation. Dermatitis. Rash. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause an allergic skin reaction.				
Acute Toxicity CAS	Component		Result	Species	Dose	Exposure

#### Product Identifier: ASI 388 Black

Specific target organ toxicity-single exposure Specific Target Organ Toxicity – Repeated Exposure:	evaluated (300 and 70 ppm). In a previous range-finding study, rats exposed to vapor concentrations of 700 ppm had decreases in the number of implantation sites and live litter size. The significance of these findings to humans is not known. [Octamethylcyclotetrasiloxane] Developmental toxicity: NOAEL 500mg/kg/day (Rat), Maternal toxicity: NOAEL 500mg/kg/day (Rat) [Alkoxysilane] Not available May cause damage to the following organs through prolonged or repeated exposure: Hematopoietic system.[Vinyloximesilane] Hematopoietic system.[Methyloximesilane]
Amination Hazard	Repeated inhalation or oral exposure of mice and rats to octamethylcyclotetrasiloxane produced an increase in liver size. No gross histopathological or significant clinical chemistry effects were observed. An increase in liver metabolizing enzymes, as well as a transient increase in the number of normal cells (hyperplasia) followed by an increase in cell size (hypertrophy) were determined to be the underlying causes of the liver enlargement. The biochemical mechanisms producing these effects are highly sensitive in rodents, while similar mechanisms in humans are insensitive. A two year combined chronic and carcinogenicity assay was conducted on octamethylcyclotetrasiloxane. Rats were exposed by whole- body vapor inhalation 6hrs/day, 5days/week for up to 104weeks to 0, 10, 30, 150 or 700ppm of octamethylcyclotetrasiloxane. The increase in incidence of (uterine) endometrial cell hyperplasia and uterine adenomas (benign tumors) were observed in female rats at 700ppm. Since these effects only occurred at 700ppm, a level that greatly exceeds typical workplace or consumer exposure, it is unlikely that industrial, commercial or consumer uses of products containing octamethylcyclotetrasiloxane would result in a significant risk to humans. [Octamethylcyclotetrasiloxane] Not available
Aspiration Hazard	Not available
Chronic effects Further Information:	Not available Methyl Ethyl Ketoxime (MEKO). Material will generate MEKO on exposure to humid air gradually. Male rodents exposed to MEKO vapor at high concentration throughout their lifetime developed liver cancer. But relevance to humans is uncertain now. Please read the detail information to MEKO below: Skin Irritation Causes mild irritation. Can be absorbed through the skin. Eyes Irritation Causes severe irritation Acute Oral Tox. LD50(rat)=>900 mg/kg Acute Inhalation Tox. LD50(rat)>4.83 mg/l/4 hr Inhalation Tox. Shows narcotic action at high concentration. May
	produce blood effects Skin Sensitization Positive (guinea pig) Neurotoxicity High dose can produce transient and reversible change in neurobehavioral function.
