

EP100-SEAL

LOW-VISCOSITY, LOW SURFACE TENSION, 100% SOLIDS EPOXY

RAPID CURE TIME ALLOWING TRAFFIC TO RE-OPEN QUICKLY

EP100-SEAL is a highly penetrating, 100% solids, two-component epoxy healer/sealer. **EP100-SEAL** is designed to prolong the life of concrete by sealing cracks against moisture and chloride ion intrusion.

Features & Advantages

VOC compliant (0 g/L)	Low viscosity
Excellent bond strength	High tensile strength providing for superior retention of aggregates
Moisture insensitive	Solvent-free
High early strength	Low odor
Easy to mix - 2:1 ratio	Designed for automated pump or hand mix application
100% solids	

EP100-SEAL is available in 3, 15, 165, and 750 gallon kits.

Tined: 1 gallon/60-80 ft²
Smooth: 1 gallon/100-150 ft²

(\$2.90 per yd²)

<250 cP - ASTM C881)

EP100-SEAL
